

Interview & Interrogation Seminar

"MAKE INFORMED DECISIONS"

How often have you asked a question that left you suspecting that person was being untruthful?

Learn to disregard those traditional, ambiguous clues & hunches of suspected deception. Instead, put the person to the test with ONE question as you evaluate their response, assess their involuntary eye, hand and leg movements without them even realizing it. Learn the power of the "NO" response and how it is avoided by the liar at all costs. Learn how to:

- Perform Forensic Statement Analysis on written and verbal statements
- Use the "Fight or Flight" syndrome to your advantage
- Develop the 3 questions of the "Verbal Lie Detector"
- Learn the power of open vs. closed ended questioning
- Recognize and respond to "Evasive Verbal Responses" with the 3 strike rule and much more!
